

## Project Title

Reconstruction of Cultural Centre

## Project Type

Social Cohesion

## Project Location

Katund i Ri

## Total Pre-Estimated Budget

430,000 Euro

## Project Background and Analysis

There is only public multi-cultural centre in all the area of the Municipality of Durres, except for the town of Durres, which is located in Katund i Ri, with a capacity of 400 people. The centre is state owned. Even though this centre can welcome a considerable number of cultural activities fans, its condition substantially reduces its attendance. It can be noticed that this centre needs reconstruction of the internal and external facilities to ensure a nicer stay for its visitors and quality development of cultural activities.

The alternative is a cultural life of rural inhabitants, limited to coffee bars of the village or different gambling points.

## Specific Objectives of the Project

The goal of reconstruction of the cultural centre is the creation of appropriate facilities for cultural and youth activities and similar public manifestations, providing Katund i Ri with an important role in the organization of socio-cultural activities for all the area.

As for geographic vicinity, inhabitants from Sukthi and Manza might come here, as well as inhabitants from other units.

## Expected Results and Project Indicators

The benefits of this project can be summarized in:

- (a) Greater inclusion of inhabitants (mainly young people) of this administrative unit in cultural activities;
- (b) Improvement of social cohesion;
- (c) Improvement of life.

Not only 10,161 inhabitants of Katund i Ri will benefit, but also the inhabitants of the functional area (175,110 inhabitants, and why not Durres included). The number of the administrative units that benefit from this intervention is 6 (six).

functional area programme  
**fap**

## Project Activities

The approximate duration of the project is 6 months – 1 year. It is foreseen that the project will be implemented in an appropriate weather period and in accordance with the calendar of the cultural activities of the centre. The foreseen activities include doing internal and external reconstruction works, as well as audio infrastructure reconstruction.

## Project Maturity

It is foreseen to have an evaluation of the conditions of cultural centre premises. Based on this evaluation, a detailed calculation of intervention needs will be done (technical and financial). The second phase will be the preparation the terms of reference, procurement, contracting and implementation.

## Financial Resources and Implementation Partners

The potential funding source is the fund of the Ministry of Culture on development and implementation of cultural projects. Among potential partners in the implementation of this project, there are the Municipality of Durres, (administrative unit of Katund i Ri), different cultural organizations, etc.

## Project Cost

The project cost is foreseen to be from 200,000 to 650,000 Euro, depending on equipment.
