

Project Title

Urban requalification in the Municipality of Sukth

Project Type

Social Cohesion

Project Location

Sukth

Total Pre-Estimated Budget

N/A

Project Background and Analysis

The Municipality of Sukth is almost lacking common spaces for rest and recreation of the community, such as: parks, playground, cultural and artistic areas etc. Urban development of the municipality has taken away the common spaces from the community and privatization has enabled their transfer to private operators. This has of course negatively affected life quality of the inhabitants' life of this municipality and it has brought loss of citizens' connection and that of the community. It also has a negative impact on youth upbringing and education.

Specific Objectives of the Project

The goal of the project is improvement of situation of the urban community infrastructure in the Municipality of Sukth, which will enable the creation of common recreation areas for the community, such as: parks, playgrounds etc. This will bring the improvement of the life quality for the inhabitants of Sukth Municipality.

Expected Results and Project Indicators

Expected results include:

- (a) creation of joint recreation areas for the community;
- (b) improvement of life quality of the community.

The urban requalification and creation of joint recreation areas will affect life improvement of 15,966 inhabitants of Sukth. The number of the administrative units that benefit from this intervention is 1 (one).

functional area programme
fap

Project Activities

The approximate duration for the implementation of urban requalification is 16 months.

The foreseen activities include:

- (a) technical assessment of the existing areas;
- (b) preparation of the terms of reference and projection for the requalification intervention;
- (c) procurement and tendering;
- (d) contracting and requalification works.

Project Maturity

Currently there is no feasibility study for urban requalification of the Municipality of Sukth. Anyhow, the squares and the objects are predefined by the Municipality.

Financial Resources and Implementation Partners

Potential funding sources are public funds of the administrative unit Sukth and/or The Regional Development Fund.

Project Cost

The costs will be calculated after the preparation of the projection.
