

## Project Title

Establishment of A One Stop Shop – Phase I “Assessment of needs and analysis of Trusses”

## Project Type

Economic Development/Social Cohesion

## Project Location

Rrashbull

## Total Pre-Estimated Budget

14,000 Euro

## Project Background and Analysis

Rrashbull administrative unit has the highest number of economic operators registered in its territory (after Durrës). Having this situation, the need to raise a necessary supportive infrastructure for the business services was identified; more concretely a service centre as a One Stop Shop. Initially, all necessary services could be offered to companies, services that are offered by the local government (possibly by the central government as well).

## Specific Objectives of the Project

The goal of the project is needs assessment for the improvement of standards and quality of supportive service provision for the businesses located in the area. It is also aimed at increasing and improving the technological processes with the aim of their evolution towards high added value.

## Expected Results and Project Indicators

Expected results include the preparation of a deepened analysis on the profile of business services that enterprises located in the new Municipality of Durrës need. The final goal is increased number of services provided to businesses and improvement of their standards.

The establishment of the One Stop Shop will directly affect the improvement of service standards that will be provided to the active businesses in Rrashbull and 6,652 inhabitants of this area. A partial impact will be on the numerous employees that work in the businesses with ordered materials.

# PROJECT 10

functional area programme  
**fap**

## Project Activities

The approximate duration for the project implementation is 12 months.

The foreseen activities include:

- (a) Identification of all enterprises with ordered materials;
- (b) building the methodology/needs taxonomy;
- (c) needs assessment and intervention planning;
- (d) preparation of final report;
- (e) promotion and public relations.

## Project Maturity

Currently, there is a need for a feasibility study for the industrial trusses in the area of the new Municipality of Durres. This will identify the needs for technical skills and consultancy that the production units will have in this area. The One Stop Shop will be built on this basis.

## Financial Resources and Implementation Partners

The main source is dldp. Other potential funding sources are public funds of the Ministry of Economic Development, Trade and Entrepreneurship, donors funds such as UNDP, USAID etc.

Potential partners in the implementation of this project include the above mentioned ministries, Chamber of Trade and Commerce etc.

## Project Cost

The project cost is assessed to be around 14,000 Euro.
